Front-end Developer with over five years of experience in HTML5/CSS3/SCSS and design translation from conception to completion. Highly committed to the work assigned to me and passionate about environments that foster female empowerment and technological innovation.

PROFESSIONAL EXPERIENCE

Optica, Washington DC

Jan 2023 - Present

Front end Applications Developer

- Partnered with marketing, design, and back-end teams to implement new features and content and fixes using HTML, Javascript, Vue, and CSS within the organization's digital properties.
- Ensured front-end systems are inclusive and accessible and perform a quarterly review of key content to identify areas for improvement.
- Optimized the user experience for both internal and external users and provides expertise in proper UI/UX and interaction design.

Optimal, Washington

July 2021- Oct 2022

HTML / CSS Developer

- Translated designer mock-ups and wireframes into front-end code
- Maintained and built out content using widgets in a custom in-house CMS
- Collaborated with content team and designer to put out thought-leadership articles and helpful blog posts for the end users
- Created and followed a component system for the potential automation of article publication
- Peer reviewed other fellow coworkers code

Rimac Seguros y Reaseguros, Perú

Nov 2019 - June 2021

Webmaster

- Made changes and maintained the public website using AEM
- Created new components for the product pages of the web
- Worked side by side the UX/UI designer and was part of the design workflow
- Published cyber sales within less than 6 hours notice
- Worked under the SCRUM and AGILE methodology (2 week sprints)

EDUCATION

WGU, Online
